

### What does Packaging of Electrical Systems mean?

In an electrically powered race car, the integration of the electrical systems is a decisive factor. These must not only be packaged to an optimum, but also designed to be as maintainable and light as possible.

### What will be your tasks?

- Familiarization with existing designs and concepts in Siemens NX
- Complete support of the component in production
- Weight optimization of the complete vehicle
- Cooperation in mechanical tasks (e.g. manufacturing monocoque, aerodynamics)
- Collaboration in cross-group tasks (e.g. testing, quizzing)

### What are our requirements for you?

- Motivation and team spirit
- Interest in fiber composites, lightweight construction and electronics
- Skilled craftsmanship
- Participation in weekly appointments
- Knowledge in the topics of mechanics, machine design
- Experience in design with Siemens NX

One Goal.  
One Team.
